Wheels on Wheels
a mobile pottery experience

The Dunedin Fine Art Center presents Wheels on Wheels outreach program, an exciting and unique opportunity that is available to the public schools, charter schools, private schools, afterschool programs and the community at large.

This program was created by DFAC through the support of the Pougialis/Anastasakis Foundation for the Arts.

This one of a kind program involves using a converted school bus as a mobile clay wheel lab. All of the seats were removed and replaced with 12 potter’s wheels. These wheels are powered by an external generator installed under the bus. The primary focus is on providing a fun and educational experience for elementary school aged children and older. Corporate team building, birthday parties, community events are among the venues the Wheels on Wheels program is also available.

Thanks to the Janet Huntley Grant through the Pinellas Community Foundation, DFAC will be able to offer no cost/reduced cost experiences to Pinellas County Public Elementary/Middle Schools during the 2020/21 School year.

The youth will actively/directly participate in the program as follows: ten students will be able to practice their “throwing” skills for 50 minutes with self-hardening clay on real, electric potter’s wheels housed in DFAC’s converted school bus. Outside the bus there will be tables for an additional ten students to practice their hand-building skills using self-hardening clay to explore coil, pinch and slab methods. After the first 50 minutes, students will rotate so that a max total of 20 youth in a 2 hour block get to experience all phases of working with the exciting medium of clay.

Request form can be found at www.DFAC.org.
